

SIMS 202 PHOTO PROJECT – Assignment 4

Photo Project Presentation (Due September 26, 2002)

0. DOCUMENT SUMMARY

1. Classification Revision
2. Photo Annotation
3. Photo Browser
4. Presentation
5. Submission Requirements

1. Classification Revision

After the feedback meeting on Friday, go back to your faceted classification and revise it according to our discussion.

Complete the classification. All descriptors that you need for annotation should be included in the classification.

Call your Excel file [groupname]_classification.xls

This part of the assignment is due on Monday, September 23!

2. Photo Annotation

Pick **3** photos per person in the group that are appropriate for your application and annotate them with descriptors from your faceted classification.

Your annotation file should also be an Excel file called [groupname]_photos.xls in the format of:

| FILENAME | MAIN FACET NAME | SUBLEVEL | SUBLEVEL / LEAF NODE | ... | ... |
|----------------------------|-----------------|----------|----------------------|---------|-----------------|
| vivienp-2002-08-24-001.jpg | Main Ingredient | Liquids | Non-Alcoholic | Juice | Raspberry Juice |
| vivienp-2002-08-24-001.jpg | Main Ingredient | Solids | Meat | Pork | Pork Chops |
| vivienp-2002-08-24-001.jpg | Cuisine | European | Mediterranean | French | |
| vivienp-2002-08-24-001.jpg | Occasion | Summer | 14th Of July | | |
| vivienp-2002-08-26-002.jpg | Main Ingredient | Solids | Vegetables | Lettuce | Iceberg Lettuce |
| vivienp-2002-08-26-002.jpg | Cuisine | Asian | Southasian | Thai | |
| ... | ... | ... | ... | ... | ... |

This part of the assignment is due on Monday, September 23!

3. Photo Browser

Send both the [groupname]_classification.xls file and [groupname]_photos.xls file to vivienp@sims.berkeley.edu by Monday, September 23 at the latest.

The TAs will work on incorporating your classification and annotated photos in a photo browser for you to present and show at Thursday's class presentation.

A preview of this photo browser with a dummy classification is available at:

<http://fusion.sims.berkeley.edu/vivienp/photodatabase.cfm>

(This classification is in no way representative of what your metadata will look like.)

We will incorporate your classification and annotations on a first-come, first-serve basis. An email with a link to your browser will be sent out as soon as it is finished.

4. Presentation

On Thursday, the 26th of September, your group will give a class presentation of what you have done in the last two assignments.

Every group has a total of 10 minutes to present. We will rigorously enforce this time limit.

We recommend structuring your presentation as follows:

1. 2 minutes: Presentation of application idea
2. 6 minutes: Presentation of classification and photo browser
3. 2 minutes: residual time for completing explanations and Q + A

Your presentation can be a PowerPoint presentation or a web page. Both should be linked from your group web page.

(Tip: If you are using PowerPoint, calculate at most 1 slide per minute.)

5. Submission Requirements

By Monday, September 23, send an email to vivienp@simms.berkeley.edu with your

- [groupname]_classification.xls file
- [groupname]_photos.xls file

By Thursday, September 26, send an email to is202-ta@simms.berkeley.edu with the URL of your assignment page including links to your:

- Group presentation
- Photo browser page (will be sent to you)

On Thursday, September 26, present your application idea, classification, and annotated photos (with the help of your photo browser) to the class.
