PHOTO PROJECT – Project groups
August 30, 2002

0. DOCUMENT SUMMARY

1. **General remarks**
2. **List of groups**

1. General remarks

Groups

You will be assigned to one of 7 groups. Each of the groups will have 6-7 team members. For the first part of the semester (photo project), most of your class assignments will be done as group work.

You will pick your own group name with your first photo project assignment (starting 9/3/2002).

Group Folders

Each group will have their own folders for group files and the assignments. Assignments will usually be handed in as web pages, which will be linked from your group web page.

Remember, all photos will be uploaded to the same directory and will not be stored in the group directory.

For now, all folders are numbered according to your group number. When you choose your group name in the first photo project assignment, we will change the folder name accordingly.

All group folders are at:

   G:/is202_photos/

Your group folder will have the number of your group in it (i.e. Group 17's group folder would be G:/is202_photos/group17/).
Only the members of your group folder have access to this folder.

Group Web Page

Every team is required to maintain their own web site. On this web site, you will publish your assignments, provide links to project files, provide information about the group

members and maintain a labor division table for each group member (more about this in the first assignment). Your group web page should be ready by the due date of the first assignment (9/12/02)

The 202 course web site will have a template you can use to create your own web site.

The folder for your group web pages will be the public_html folder in your group directory. You have to put all your html pages as well as all the files that you link from your group web page in this folder.

Location of web folder for groups:

   G:/is202_photos/group17/public_html/

Your web page will be accessible via this link:

   http://www.sims.berkeley.edu/academics/courses/is202/f02/photo_project/group17/

Group Mailing Lists

Every group will have their own mailing list.

For now, the mailing lists have generic names, which we will change once you choose your group name.

Your mailing list:

   is202-group17@sims.berkeley.edu

To write to your group list, send an email to the email address specified for your group.

For questions or discussions involving the whole class, you should also be subscribed to the is202 class mailing list.

Questions? Email: is202-ta@sims.berkeley.edu
