1. PROJECT IDEA AND TEAM

Based on our in-class ideation work and discussions with your classmates/teammates, select an idea for your final project. (If you are choosing to analyze and/or work on an existing multimedia system, you will need to choose the type of system, but, if need be, may defer the choice of the specific system until the final project proposal phase). Write one page describing:

- Your project team (names and roles)
- Your project type (paper, low-fi prototype)
- Your project idea (which type of system, process, or component?)
- Your project motivation
- Your likely target audience
- Whether you plan to continue your project in IS290 Digital Media Design Studio
