

Potty Party Sketch

Anirban Sen
Katherine Ahern
Aylin Selcukoglu

Pressure and Temp.
Sensor under seat as
input device.

Speaker for stories and
music for the child while
he or she waits and
reinforcement after.

Serial output device
based on input from
pressure upon sitting and heat
when the child goes. Will trigger
the reinforcement video and
music. Future work and improvements
could involve a paging device to notify
parents.

Television screen to play
reinforcement and entertaining
video upon successful outcome.
