

SIMS IS290-08 DIGITAL MEDIA DESIGN STUDIO MILESTONE 4 – RELATED WORK OVERVIEW

0. DOCUMENT SUMMARY

- 1. RELATED WORK OVERVIEW**
- 2. HANDING IN THE ASSIGNMENT**

1. RELATED WORK OVERVIEW

Based on the resources and research methods discussed in the lecture on Related Work, you will gather a number of materials relevant to your design project. This assignment is designed to help you document what you gather and to make those resources available to others in the course. In order to meet those goals, you will create an annotated bibliography of 10 related work sources. Your annotated bibliography should contain for each entry:

- Full bibliographic listing of the related work
- Pointer to the source file of the related work
- Abstract of the related work
- Brief paragraph and/or bullet points articulating what is relevant to your project about the related work

In addition, select 2 of these items for the class to read and discuss. For each selection, write a brief paragraph and/or bullet points articulating why you think the class should read it and what about the related work will be relevant to other projects in the course.

2. HANDING IN THE ASSIGNMENT

Please email your MS Word file to marc@sims.berkeley.edu by 2:00 pm on Wednesday, February 16, 2005.
