IOLab Assignment 3: Responsive Web Design

Due: Noon, Monday 10/22
Tasks
I. Modify your A1 website to be responsive
II. Take screenshots at different dimensions

I. Modify your A1 website to be responsive

Use 3 media queries in your CSS to change the layout and design of your page.
In doing so, use at least 3 different "breakpoints" like we discussed in class (e.g. 600, 900, between 600 and 900, 480, 320, etc.)

Note: Feel free to change the layout, design, or markup of your A1 as you please.

II. Take screenshots at different dimensions

Option 1: Use Adobe Edge (originally Shadow) to take screenshots of your browser as they would appear on different devices.
http://html.adobe.com/edge/inspect/
Option 2: Take screenshots on actual devices (phone, tablet, laptop, etc.).
Option 3: Take screenshots of your browser in different sizes on your computer.

What to submit

A zip file with:
1. README.txt file that includes:
   ● Your Name
   ● The URL to your hosted website
   ● A description of your modifications you made
2. Your code
3. Your screenshot in two different device sizes

If you borrowed code from other places, please make sure to cite where you got it from in a comment and let us know.

How to submit

Email us your zip file by Noon, Wednesday 9/5/12
